

# **Makita**® 7-1/4" HYPOID SAW

**EFFICIENT HYPOID GEARS DELIVER MORE POWER AND GREATER SURFACE CONTACT THAN CONVENTIONAL WORM DRIVE GEARS**

**Large Cutting Capacity (2-3/8" at 90°; 1-3/4" at 45° and 1-9/16" at 50°)**

**Lower Guard Design Improves Performance when making Bevel and Narrow Cuts**

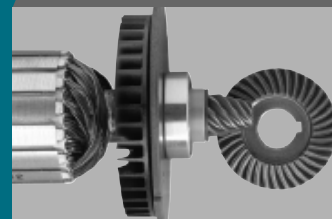

**Oversized Top Handle for Better Fit and Added Comfort**

**Ideal for Framers, Builders, Masons, and Contractors**

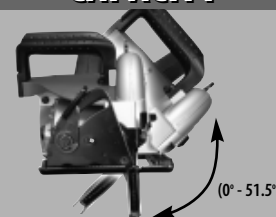

**Model  
5477NB**

## **TECHNOLOGY**

**Oil bath technology and sealed gear housing for less maintenance**

## **CAPACITY**

**0° - 51.5° bevel capacity with positive stops at 45° and 51.5° ideal for truss and rafter cut-outs**

## **PERFORMANCE**

**High quality, heat treated hypoid gears for long lasting performance**

## **POWER**

**Powerful 15 AMP motor for increased productivity**

# **MORE POWER. LESS MAINTENANCE.**

# 7-1/4" HYPOID SAW

## Model 5477NB

### FEATURES & BENEFITS

- Efficient hypoid gears deliver more constant power and greater surface contact than conventional worm drive gears
- Oil bath technology and sealed gear housing for less maintenance
- 0° - 51.5° bevel capacity with positive stops at 45° and 51.5° is ideal for truss & rafter cuts
- High quality, heat treated hypoid gears are engineered for long lasting performance
- Powerful 15 AMP motor for increased productivity
- Large cutting capacity (2-3/8" at 90°; 1-3/4" at 45° and 1-9/16" at 50°)
- Lower guard design improves performance when making bevel and narrow cuts
- Oversized top handle for better fit and added comfort
- Large levers for fast bevel and depth adjustments
- Push button spindle lock for easy blade changes
- Blade wrench is attached to the saw for fast and convenient blade changing
- Ergonomically designed rubberized grip improves control
- Base plate is chemically treated to resist rust and warping for superior cuts
- Reinforced 10 ft. cord withstands job site abuse and lowers repair costs
- Large and easy-to-read markings on depth and bevel scales
- Externally accessible brushes for easy replacement and extended tool life
- 24T thin kerf carbide tipped blade for fast cutting
- Ideal for Framers, Builders, Masons and Contractors

### STANDARD EQUIPMENT

- Carbide tipped blade (D-24826)
- Blade wrench (783204-6)

### SPECIFICATIONS

|                       |        |               |
|-----------------------|--------|---------------|
| Blade diameter        |        | 7-1/4"        |
| Arbor                 |        | 5/8"          |
| No load speed         |        | 4,500 RPM     |
| AMPS                  |        | 15.0          |
| Max. cutting capacity | at 90° | 2-3/8"        |
|                       | at 45° | 1-3/4"        |
|                       | at 50° | 1-9/16"       |
| Net weight            |        | 13.9 lbs.     |
