

1-3/8" MAGNETIC DRILL

NEW TOOL OVERVIEW HB350

FEATURES

- Spindle coolant system with removable reservoir for improved cutting performance
- Industrial chuck accepts 3/4" Weldon Shank cutters
- Magnetic base produces powerful clamping force for increased accuracy and stability while drilling
- Motor height adjusts for various cutting thickness up to 2"
- Dovetail slide mechanism for smooth and consistent drilling performance
- Simplified three button control panel for ease of operation
- Removable feed handles for convenient storage
- Integrated carrying handle for added convenience

SPECIFICATIONS

AMPS	10
No Load Speed (RPM)	850
Chuck Type	3/4" Weldon
Capacity (cutting diameter)	1-3/8"
Cutting Capacity (depth)	2"
Length of Stroke	6-19/64"
Overall Height	19-5/16"
Overall Length	8-7/8"
Net Weight	26 lbs.
Shipping Weight	37.49 lbs.
UPC Code	088381-732789

PRODUCT HIGHLIGHTS

PERFORMANCE

Cuts holes in steel up to 1-3/8" diameter and 2" thick

PORTABILITY

Lightweight and portable design; ideal for working in constrained or elevated spaces

POWER

10 AMP motor delivers 850 RPM for enhanced cutting speed

DESIGN

Removable guard isolates the cutting mechanism while rotating

STANDARD EQUIPMENT

- 1-3/8" Magnetic Drill (HB350)
- 500 mL coolant bottle and connection hose
- Safety strap
- Hex wrenches
- Cutting guard
- Tool Case
